

최 정 윤

고려대학교 의과대학 신경과학교실

Jeong-Yoon Choi, MD

In this session, we briefly reviewed recently published topical papers in the fields of neuro-ophthalmology and neuro-otology. The main findings are: (1) updated diagnostic criteria for pseudotumor cerebri, 2) efficacy of acetazolamide in PTCS patients with mild visual loss, 3) updated diagnostic criteria for Meniere's disease, and 4) categorization of vestibular disorders.
